() NEW COMMENTS WERE RECEIVED

OEA served an Environmental Assessment (EA) for this proceeding on October 26, 2010 for public review and comment. In the EA, OEA recommended two environmental conditions and concluded that the proposed action would not significantly impact the quality of the human environment.

Conclusions

The EA comment period has ended. Accordingly, OEA recommends that the following conditions previously recommended in the EA should be imposed upon any decision granting abandonment authority:

1. Prior to commencement of any salvage activities, Union Pacific Railroad Company shall consult with the U.S. Army Corps of Engineers (Corps) regarding the required NWP conditions and shall comply with the Corps' reasonable requirements.
2. Union Pacific Railroad Company shall consult with the National Geodetic Survey (NGS) and notify NGS at least 90 days prior to beginning salvage activities that could disturb or destroy any geodetic station markers.

If the above conditions are imposed, OEA believes that the proposed action will not significantly affect the quality of the human environment.
